

How do you like NAOMI direct digital x-ray system?

After doing a lot of research with other digital x-ray systems, NAOMI has been by far the most economical and easy to use. We were taking x-rays within 1 hr of delivery!

When do you feel NAOMI system is influencing your office most?

It has streamlined our office flow even more. We are able to help more people more efficiently.

How does NAOMI system compare to the traditional film-based x-ray process?

It really helps when we are examining back-to-back new patients. No worries about film processing.

What is your patients' reaction after installing NAOMI system?

The digital image has been an effective tool to show my patients their condition and also to transfer images to other providers.

NOTE

No need for preparation?

Even the latest automatic processor needs preparation. NAOMI doesn't require it nor the time spent on it. X-rayed image automatically appears on the PC monitor. With NAOMI in the office, you'd always be prepared.
